

Install guide for (2015+ Dodge Challenger/Charger Radio Upgrades)

Before you begin, make sure to checkout our install video. We spend a good amount of time getting these videos just right so that they will be a helpful guide.

Part lists

- Radio Upgrade (UAG/UAQ/UAS)
- USB Hub
- GPS Antenna*
- Antenna Fakra Conversion Cable*
- Genie Programmer*

*If needed/ordered with kit.

Tools required for installation, socket sizes & whatnot.

- Light Source
- Pry Tool
- Flathead Screwdriver
- Philips Screwdriver
- 7mm Wrench/Socket

Skill Level: 1

Time Investment: 1 hour

Step 1: Take your pry tools and slowly work your way around the bezel. It is only held in with retainer clips.

Note: The vents may or may not come out with bezel. They will just snap back into place. Place the bezel off to the side.

Step 2: Remove the four screws from around the stock radio. These will be 10mm bolts or Philip screws.

Step 3: Disconnect all the connections on the rear of the factory radio. Set the factory radio to the side.

Note: For your reference, take a picture of how the factory radio is connected to the vehicle.

Step 4: The 52 pin black connector has a locking lever that needs to be moved up to release the connection.

Step 5: Some vehicles will not have an XM or GPS antenna as the factory radio didn't call for the antennas installation. In these case you'll need to install a new antenna to get those signals but if you have said antenna from factory then use the fakra conversion cable in the kit to plug the antenna into the yellow/curry fakra port on the rear of the radio.

Step 6: If you need to install a new XM and/or GPS antenna, you'll just plug the fakra into the yellow/curry port on the rear of the radio then route the antenna under the dash. As long as there is no metal above the antenna, then it should get a good signal. If not, then move antenna and test till you find a good spot.

Note: XM and GPS are two different signals, Either a combo antenna is needed or a XM and GPS antenna with splitter is needed.

Step 7: Take your new Infotainment radio, plug in all the rear connections you have. The main connections to make are the 52 pin connector, the yellow/curry fakra for XM/GPS, the white fakra for AM/FM signal, and the micro USB connections for the USB hub.

Step 8: Place the radio into the dash and line up the mounting holes. Reinstall the four 10mm bolts or the four screws to hold the radio in place.

Step 9: Take the bezel and carefully mount it back into place. You may need to give it a good smack with the palm of your hand to engage the retainer clips.

Step 10: Now to replace the factory USB hub for use with the new radio. This is an important step as Carplay/Android Auto needs the new USB hub to work. You'll find the factory USB hub in the arm rest.

Step 11: The USB hub is held in with retaining clips, four total. You'll need to pry up the USB hub and using a pick or flathead screwdriver to depress the retainer clips to release the factory USB hub.

Step 12: Once you have the factory USB Hub removed, disconnect the two connections on its rear. Depress the locking tabs to get the connections to release.

Step 13: Plug in the new USB hub using the same two factory connections from the factory USB hub.

Step 14: Push the new USB hub into place. Its retainer clips will engage to hold the USB hub in place.

Step 15: For 2018+ Charger/Challengers your install is complete. Enjoy!

Note: Remember with Uconnect 4 radios like the UAQ/UAS/UAG, there is an acclimation time for the radio to learn from your vehicle's BCM what features it needs to display. This acclimation can take 24-48 hours for all features to work. Be sure to be patient and give the radio enough time to acclimate before reporting issues.

Step 16: For the 2016-2017 Charger/Challenger installs for the UAG 7" screen will need to use an OBD Genie to program the vehicle to know how to use new USB hub.

Step 17: Use the genie to program the vehicle for the new upgrade.

I. Put vehicle into the run position.

II. Wait 1 minute after putting the vehicle into run to plug in the genie programmer.

III. The genie once plugged in will flash blue as it tries to program.

IV. The genie will turn a solid green light once programming was completed successfully, programming can take 1-3 minutes long.

V. Remove the genie and give the vehicle a sleep cycle.

VI. Test out your new upgrade.

VII. Enjoy!

Step 18: Thank you for the purchase and enjoy the upgrade!

THINGS TO KNOW

- If your Charger is a **2015** model and currently equipped with heated seats, ventilated seats, heated steering wheel, and/or sport mode, you will need to purchase a new Body Control Module to maintain the ability to manually control these features. Once you have the module, it needs to be installed, and a PROXI Alignment must be performed at a local dealership. [CLICK HERE](#), for specifics about this solution.
 - *Please note that any costs or fees associated with dealer services are not the responsibility of Infotainment.*
- Customers who own a **2015** or **2016** Charger will receive a replacement USB media hub. Simply remove your existing USB media hub and install the replacement for full Apple CarPlay compatibility.
- Customers who are currently subscribed to the paid subscription of UConnect Access® will forfeit this feature by upgrading to the new UConnect 4 system (*which now uses Sirius Guardian®*). At this time, it is extremely rare that Sirius Guardian will allow for a service retrofit.
- Designed for vehicles already equipped with either a 5-inch or 8.4-inch

DISCOVER YOUR VEHICLE'S POTENTIAL

touchscreen radio. A replacement radio dash bezel is not required.

- Pre-programmed to function with your vehicle's existing steering wheel mounted audio controls.
- If your vehicle is **currently** equipped with Sirius satellite radio then the factory roof mounted Sirius antenna will plug directly into our pre-programmed system. This scenario allows for seamless integration of the satellite radio feature including the GPS signal required to operate the UAQ internal GPS navigation mapping.
- If your vehicle is **not currently** equipped with Sirius satellite radio and you don't ever intend to subscribe to satellite radio you still must purchase our FAKRA C to K Cable separately to retain the vehicle's existing GPS/Compass antenna which is required to operate the UAQ internal GPS navigation mapping.
- If your vehicle is **not currently** equipped with Sirius satellite radio and you would like to subscribe to this great feature simply purchase our Custom SiriusXM GPS Antenna Kit.
- If your current radio features Sirius® Travel Link and Sirius® Traffic it will be retained with the UAQ upgrade. If you would like to add this feature to the UAQ, simply purchase our OBD Genie C-STL Programmer.
- Pre-programmed to function with your vehicle's existing back-up rear view camera. If you would like to add a rear view back-up camera check out most popular plug & play OBD Genie Rear View Camera Bundle.
- Pre-programmed to function with your vehicle's existing UConnect® bluetooth hands-free calling feature. Simply re-pair your phone to the new radio once installed.

Return Policy/Warranty Terms

Infotainment.com 30-Day Return Policy:

Infotainment.com offers hassle free returns within 30 days from the date-of-delivery for a full refund unless otherwise stated on the product advertisement (such as a custom or special order item). The customer may choose to cancel their order prior to shipping or fulfillment without penalty. If the customer's order or package sustained physical damage it must be reported to Infotainment.com within 7 days of arrival. A 15% restock fee will apply to all returns unless the returned item(s) have been deemed defective by Infotainment.com after full inspection, in this case a restocking fee will not be assessed.

To initiate a return, the customer is required to contact the customer service department by phone, live chat, or via the online ticket system at anytime within 30 days from the date-of-delivery. The representative will issue a Return Merchandise Authorization (RMA) number, which is required to process your return. A copy of a completed RMA form must be included with the return shipment to expedite the process. The return must be shipped within 7 days of the RMA issuance. Infotainment.com reserves the right to refuse any package returned to them without authorization or process could be delayed over 30 days.

Customers are responsible for all return shipping charges unless they receive the wrong product or a defective item. It is recommended that the customer utilizes signature confirmation and/or insurance when shipping an item to Infotainment.com.

Infotainment.com will not be responsible for lost or damaged packages. Only the signature of an Infotainment.com employee will suffice as proof of delivery. A pre-paid return shipping label may be requested by the customer (located within the continental U.S) at the cost of \$15.00 to be deducted from the total refund amount. Customers located outside the United States will be responsible for all incurred shipping charges and customs duty/tax fees to or from Infotainment.com.

Returns will be processed within ten (10) business days of receipt (not including weekends, holidays, and the day the package is delivered). Refunds will be issued back to the original form of payment. If the original form of payment is no longer valid the refund will be issued as store credit. Infotainment.com reserves the right to reject or impose additional charges for replacement of a return if there is damage, missing

components, excessive use/wear, a different serial number from when originally shipped, etc. If the customer's return has not been processed within 3 weeks of arrival the customer is advised to contact the customer service department for an update. This return policy is null & void if product(s) have been tampered with or modified. Infotainment.com is not responsible for professional fees related to installation, removal or re-installation of any product. Infotainment.com reserves the right to change or amend the return policy and procedures at any time without notification.

Infotainment.com Retail 90-Day Warranty Policy:

Infotainment.com offers hassle free technical support and warranty claims on all products within 90 days from the date-of-delivery. Physical damage to an item received must be reported within 7 days of arrival.

To initiate a warranty claim, the customer is required to contact the customer service department by phone, live chat, or via the online ticket system at anytime within 90 days from the date-of-delivery. The representative will assist the customer with technical support and step-by-step troubleshooting procedures to resolve any issue or concern. If it is determined that the product(s) must be sent back for repair or exchange the representative will issue a Return Merchandise Authorization (RMA) number, which is required to process the warranty claim. A copy of a completed RMA form must be included with the return shipment to expedite the process. The item(s) must be shipped within 7 days of the RMA issuance. Infotainment.com reserves the right to refuse any package returned to them without authorization or process could be delayed over 30 days.

A pre-paid return shipping label will be issued by the customer service representative for customers located within the continental U.S. only. Customers located outside the U.S. will be responsible for all incurred shipping charges and customs duty/tax fees to or from Infotainment.com. Customers are fully responsible to ensure the item(s) are packaged securely to prevent damage in shipping transit. Infotainment.com will not be responsible for damaged item(s) due to poor packaging.

Warranty claims will be processed within five (5) business days of receipt (not including weekends, holidays, and the day the package is delivered). An Infotainment.com technician reserves the right to determine whether the troubled product requires a simple repair or a full replacement. Once the issue is resolved, a tracking number will be immediately provided to the customer when the repaired or replacement item is shipped

therefore ending the warranty claim. Infotainment.com reserves the right to reject or impose additional charges for warranty claims if there is damage, missing components, excessive use/wear, a different serial number from when originally shipped, etc. Infotainment.com will allow up to two (2) claims per order before it is determined the item(s) will not work in the customer's vehicle. If the customer's warranty claim has not been processed within 3 weeks of arrival the customer is advised to contact the customer service department for an update.

This warranty policy is null & void if product(s) have been tampered with or modified. Infotainment.com is not responsible for professional fees related to installation, removal or re-installation of any product. Infotainment.com reserves the right to change or amend the warranty policy and procedures at any time without notification.

Infotainment.com Extended 1-Year Warranty Policy:

Infotainment.com offers hassle free technical support and warranty claims on all products within 1 year from the date-of-delivery to retail customers who opt for the extended warranty coverage upon checkout. This policy also applies to all registered Infotainment.com wholesale accounts. Furthermore, franchise automobile dealers are granted additional coverage for their customers to match the vehicle's 3 year / 36,000 mile bumper-to-bumper manufacturer's warranty.

To initiate a warranty claim, the customer is required to contact the customer service department by phone, live chat, or via the online ticket system at anytime within 1 year from the date-of-delivery. The representative will assist the customer with technical support and step-by-step troubleshooting procedures to resolve any issue or concern. If it is determined that the product(s) must be sent back for repair or exchange the representative will issue a Return Merchandise Authorization (RMA) number, which is required to process the warranty claim. A copy of a completed RMA form must be included with the return shipment to expedite the process. The item(s) must be shipped within 7 days of the RMA issuance. Infotainment.com reserves the right to refuse any package returned to them without authorization or process could be delayed over 30 days.

A pre-paid return shipping label will be issued by the customer service representative for customers located within the continental U.S. only. Customers located outside the U.S. will be responsible for all incurred shipping charges and customs duty/tax fees to or from Infotainment.com. Customers are fully responsible to ensure the item(s) are

packaged securely to prevent damage in shipping transit. Infotainment.com will not be responsible for damaged item(s) due to poor packaging.
